**Vision:** The St. Bonaventure University School of Business seeks to be recognized as the premier Franciscan business school, one that excels in business education, applied scholarship, and impactful engagements with the regional, national, and global communities in which we live.

**Mission:**

Grounded by Franciscan values, the mission of the St. Bonaventure University School of Business is to develop ethical leaders for the common good and the bottom line. We encourage and support our student's development and growth inside and outside the classroom; contribute to the understanding of effective business and educational practice; and work for the betterment of our communities.

**Values:**

The following Franciscan Values are uniquely linked to our Franciscan mission and are incorporated into our curriculum and services learning initiatives.

**Contemplation**

To think deeply, to ponder, to meditate, to consider, to study, to plan, to ask "what does it all mean?" is to be a contemplative

***Love***

To learn ... not for the sake of accumulating knowledge alone, but so that knowledge can be applied to the betterment of others.

***Respect***

To be a “global village” in which people of all social classes, races, nations and beliefs live, accept, and attempt to understand and support one another.

***Joy***

To believe that the God who made the world is a good God, that the world and the people in it are good, and that whatever difficulties we face, it’s all going to work out for the best. To look at life through a positive lens.

***Peace***

To uncover the injustices which are the roots of hatred and violence. To prepare ourselves with knowledge, skill and love to promote a better world; to truly be an “instrument” of God’s peace.

***Compassionate Service***

To volunteer, to help, to seek opportunities to be of assistance to others. To give of our time with a sense of humility and a desire to make the world a better place. To see education as a means of being able to serve our fellow human beings.

**Course Description**

An in-depth analysis of marketing functions. Topics include consumer behavior, product planning, pricing, distribution, and promotion.

**Course Objectives**

1. Define the term marketing and explain its role and importance in an individual firm and the overall economy.
2. Develop insight about creative selection of target markets and business decisions related to product, price, promotion, and place (i.e., the marketing mix) to meet the needs of a target market.

**Program Objectives**

Marketing 301 (Principles of Marketing) is a required course for business majors, and supports the program learning goals and objectives as shown below:

| <b>Program Learning Goals</b>                      | <b>Objectives</b>                                                                                                                                                                                                                                                                                                                                                                                                                     | <b>Course Activity</b><br>Describe how goals or objectives are met in the course (for those that are applicable)                   | <b>Level of Coverage (Mi, Mo, Ex)</b><br>Indicate how often the program objective is covered throughout the course |

| <b>Goal 1 – Knowledge of Business Disciplines:</b> | 1. Graduates will demonstrate competence and understanding of basic business disciplines and concepts.<br><br>1. Define the term marketing and explain its role and importance in an individual firm and the overall economy.<br>2. Develop insight about creative selection of target markets and business decisions related to product, price, promotion, and place (i.e., the marketing mix) to meet the needs of a target market. | This course will cover fundamentals marketing concepts will be assessed through testing and assignments designed to apply material | EX                                                                                                                 |
|                                                    | 2. Graduates will demonstrate competence in and understanding of their major disciplines.                                                                                                                                                                                                                                                                                                                                             |                                                                                                                                    |                                                                                                                    |
| <b>Goal 2 – Social Responsibility:</b>             | 1. Graduates will apply an ethical framework to decision making.                                                                                                                                                                                                                                                                                                                                                                      |                                                                                                                                    |                                                                                                                    |
|                                                    | 2. Graduates will relate Franciscan values to contemporary business practice.                                                                                                                                                                                                                                                                                                                                                         | The Franciscan Values off the wall will be discussed and applied to contemporary business scenarios.                               | Mi                                                                                                                 |

|                                                |                                                                                                                    |                                                                                                                          |    |
|------------------------------------------------|--------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------|----|
| <b>Goal 3 – Critical Thinking:</b>             | 1. Graduates will demonstrate critical thinking skills and the ability to apply them to solving business problems. | Students will utilize critical thinking skills in analyzing new product launches as part of the semester course project. | Mo |
| <b>Goal 4 – Globalization &amp; Diversity:</b> | 1. Students will be able to recognize how demographic and cultural differences impact business operations.         | Cultural and demographic factors will be examined and analyzed using application of Hofstede culture index.              | Mi |
|                                                | 2. Students will be able to demonstrate appropriate response to differences in a global environment.               | Global environmental factors will be examined as they pertain to changes to global marketing mix                         | Mi |
| <b>Goal 5 – Effective Communication:</b>       | 1. Graduates will demonstrate effective written communication skills.                                              | Student project includes a written project                                                                               | Mo |
|                                                | 2. Graduates will demonstrate effective oral communication skills.                                                 | Student project requires a recorded video presentations                                                                  | Mi |
| <b>Goal 6 – Technology:</b>                    | 1. Graduates will demonstrate effective use of technology in required coursework.                                  | Student will utilize Statista database and will use presentation software/technology to submit presentations.            | Mi |

\* (Mi= Minor, Mo= Moderate, Ex= Extensive)

### **Required Texts and Other Materials**

***MKTG 14*** by Charles Lamb, Joseph Hair and Carl McDaniel, 14th Edition ©2025 Cengage Learning, Inc. (ISBN 978-0-357-92921-6)

### **Supplemental Texts and Websites**

Success in the business world will be enhanced by your understanding and knowledge of current events in the world and the field of business. It is highly recommended that students get into the habit of incorporating outside information about business into their daily lives. The following are excellent sources for keeping in touch with the outside world and within various career functions:

Business Week, Fortune, WSJ and the Harvard Business Review as well as websites such as [www.npr.org](http://www.npr.org) (National Public Radio), [www.businessweek.com](http://www.businessweek.com) and [www.marketingpower.com](http://www.marketingpower.com).

### **Technology Requirements**

Course information will be posted on Moodle or communicated through email. Please be sure to check your sbu email on a regular basis for course information.

### **Evaluation Procedures**

|                                       |             |
|---------------------------------------|-------------|
| Weekly Engagement Activities (WEA)    | 250 points  |
| WEA Discussion Boards (participation) | 100 points  |
| Exams                                 |             |
| Three tests worth 100 points each     | 300 points  |
| Finding Goldy Project (FG)            | 250 points  |
| FG Presentation                       | 100 points  |
| Total Possible Points                 | 1000 points |

\*Final grades are rounded to the nearest whole percent. Do not ask me to change your grade unless an error has occurred. The actual grade you earn will be determined as follows:

### **Grading Scale:**

**A = 94-100%**  
**A- = 90-93%**  
**B+ = 87-89%**  
**B = 83-86%**  
**B- = 80-82%**  
**C+ = 77-79%**  
**C = 73-76%**  
**C- = 70-72%**  
**D+ = 67-69%**  
**D = 63-66%**  
**D- = 60-62%**  
**F = 0-59%**

### **Weekly Engagement Activities (250 points)**

Most weeks, there will be a Weekly Engagement Activity (WEA), designed to reinforce the lecture concepts and reading covered that week. Completion of these activities is a critical component to learning and applying material in this course. These are to be completed independently.

### **Discussion Board Participation/Professionalism (100 points)**

WEA assignments will also be the basis for several discussion boards. See “Course Rhythm” table after the course tracking calendar. After WEAs are submitted for the week, I will post a discussion question related to the WEA. Students are required to reply to my initial question, as well as reply to two other people’s responses. The assignment will be considered “completed” after those parameters are met. Be sure to post thorough, well thought out responses (no one word or short phrase answers) to generate a healthy vibrant discussion. Grading is “complete versus incomplete” unless the discussion posts showed insufficient preparation, minimal effort or didn’t make a worthwhile contribution to the discussion.

#### ***Class Participation:***

- Develop confidence in participating. Some people have good ideas or questions but are hesitant to speak up. Good ideas are lost if they are not shared.

#### ***Class Professionalism:***

- The way in which you approach the class and interact with your peers will be evaluated. Professionalism and respect is expected in all discussion board activities.

### **Tests (300 points)**

There will be three tests during the semester worth a total of 30% of your grade. The tests may consist of multiple choice, true/false, and/or short answer questions. The test will be based on the material in the assigned reading as well as material not in the textbook but covered in class. There may be material assessed from the readings that are not directly covered in recorded lectures. If a topic is on a test, I will make every effort to include it on the test review sheet for you to cover independently.

You will be given a limited amount of time to take the test, so be sure to be prepared. Each test will be open for 60 hours (2 ½ days) in Moodle for you to complete it.

**Failure to complete the exam in the assigned timeframe will result in a zero for the test.**

**Makeup exams will only be granted in cases where extenuating circumstances prevented a student from completing the test. In these circumstances, prompt and effective communication on the part of the student will strongly influence whether or not a makeup test is granted.**

Test 1: Ch 1,2 and 4

Test 2: Ch 6-8 and 10

Test 3: Ch 13, 15, 16 and 19

### **Finding Goldy Project (250 points)**

Finding Goldy is a tool we will cover in class that is based on a combination of Disney Pixar’s approach to telling a story (Finding Nemo) and the fairytale story of Goldylocks, which at its core was about distinction in product offerings. 😊

Students can work independently or if requested, can work in pairs to complete this assignment. The FG assignment demonstrates student understanding of target markets, personas, “optimal distinction” and the critical aspect of marketing of *meeting customer needs*.

### **FG Presentation/Reflection (100 points)**

Students will upload a video presentation (10-minute max) summarizing their FG project as well as some required reflection topics including on the use of AI in the project. Specifically, students should discuss where AI was most helpful, where it failed or oversimplified complex issues, any ethical issues identified, and how they applied professional judgment in the use of AI in this project. Detailed rubric will be provided.

### **Description of Instructional Methodology**

This course is delivered asynchronously online. Students will be provided with PowerPoint presentations summarizing course concepts, as well as brief videos explaining more complex ideas or examples. Students will participate with each other through Weekly Engagement Activity (WEA) discussion boards with prompts to apply course concepts to specific industries. To maintain the pace of learning materials, students complete three exams. Since this course is delivered asynchronously with minimal instructor intervention, successful students in this course will pace themselves appropriately and have strong self-motivation skills.

THIS COURSE IS NOT EASIER THAN THE IN-PERSON SECTIONS. Discuss any issues with me early in the semester so that we can plan for your success.

| WEA | Topics                                                            |
|-----|-------------------------------------------------------------------|
|     | Franciscan Values – Off the Wall – Ice Breaker (not a graded WEA) |
| 1   | Ansoff's Strategic Planning Tool                                  |
| 2   | Domestic Environmental Scans                                      |
| 3   | Global Culture and MM scan – Hofstede index                       |
| 4   | Consumer Behavior                                                 |
| 5   | Segmentation Bases/Positioning/Perceptual Maps                    |
| 6   | Statista Tool/Market Opportunity Analysis                         |
| 7   | Ted Talk – Malcolm Gladwell/Product Design and Segmentation       |
| 8   | Luxottica                                                         |
| 9   | Promotional Mix/Troy Library                                      |
| 10  | Monoprice – pulling it all together                               |

### **A Word About Moodle**

I use the Moodle gradebook feature as grade repository. It is a place where I will record your grades and where you will have access to individual grades. **I do not use Moodle's grade calculations in assigning your overall final grade.** I also use Moodle to post powerpoint slides, make announcements, post assignments and track attendance. Please get in the habit of checking your grades on Moodle.

### **University Policies**

#### **Academic Honesty Policy at St. Bonaventure University:**

Enrollment at St. Bonaventure University requires adherence to the University's standards of academic integrity. These standards may be intuitively understood and cannot, in any case, be listed exhaustively. The following examples, detailed in full in Appendix B of the Code of Conduct ([www.sbu.edu/codeofconduct](http://www.sbu.edu/codeofconduct)), represent some basic types of unacceptable behavior: cheating, plagiarism, fabrications, obtaining an unfair advantage, aiding and abetting academic dishonesty, falsification of records and official documents, and unauthorized access to records. Academic dishonesty is a serious matter and will be dealt with accordingly, with University sanctions ranging

from grade alteration to the possibility of expulsion. Students should familiarize themselves with these very important provisions of the Academic Honesty Policy, which is outlined in the Code of Conduct for reference only. Acts of academic dishonesty are not processed through the University Judicial process; the process for handling alleged violations is outlined within the policy.

Please consult the St. Bonaventure University Student Handbook (<http://www.sbu.edu/docs/default-source/about-sbu/code-of-conduct-2016-2017.pdf?sfvrsn=6>) for a list of unacceptable practices, penalties to be assigned and procedures to be followed in prosecuting cases of alleged academic dishonesty. Further, the St. Bonaventure University Undergraduate Catalog may be consulted for specific details on all academic policies at St. Bonaventure.

### **Students with Disabilities**

Students with disabilities who need academic accommodations should contact the Accessibility Services and Accommodations office at [asa@sbu.edu](mailto:asa@sbu.edu) or at 716-375-2115. Additional information about accommodations can be found here: <https://www.sbu.edu/asa> Please reach out early in the semester so that we can assist you as soon as possible. Documentation from the Accessibility Services Office is required before the instructor can make accommodations.

### **Counseling Center and Crisis Services**

Students who are full-time and currently enrolled in any of our on-campus undergraduate or graduate programs are eligible to see our licensed clinicians for crisis, individual, or group therapy. Services are generally provided throughout the academic year, excluding winter and summer break. An exception is when students are on-campus and enrolled in classes during the summer sessions. Students do not need a diagnosis or have to be in crisis to receive help. Services can be brief and are tailored to your needs and goals. To schedule an appointment or learn more about free and confidential services available to you, you can complete the Counseling Request Form here: <https://www.sbu.edu/life-at-sbu/student-health-safety-conduct/center-for-student-wellbeing> or call 716-375-2310, option 1.

Alongside our on-campus counseling services, SBU offers students free teletherapy sessions with our online therapy partner, BetterMynd. BetterMynd serves as an alternative for students who may prefer teletherapy instead of in-person counseling with our SBU counselors. To register for the BetterMynd platform, visit the site and use your SBU email address (<https://login.bettermynd.com/>). BetterMynd also offers 24/7 crisis and support services that are free to you. If you are in crisis or have a safety concern for you or a friend after hours, you may contact the following resources: 716-375-2525 (Campus Safety and Security; BetterMynd 24/7 Support Line: 1-844-BTR-MYND (287-6963); or the National Crisis Support: Text “HOME” to 741741 or call 988.

For those students who are looking for an additional mental health resource to counseling, St. Bonaventure University’s Counseling Center has partnered with Togetherall — an anonymous, 24/7 online peer-to-peer community where students can connect with others and even get connected to individuals in your field of interest. You may use your university email to register and access the platform for free at <https://account.v2.togetherall.com/register/student>

## **Instructor Policies**

### ***Late Assignment/Missed Exam Policy***

Late assignments will typically be accepted, but are subject to at least a 10 percent deduction from the maximum possible score. Assignments are considered late if they are not submitted during the period in which they are due (prior to their cut off time in Moodle). Assignments must be submitted within one week of the original deadline. Assignments will not be accepted after the graded assignments have been returned. See section above for missed exam policy.

**Discussion board posts will not be accepted after the due date. If an exam is taken outside of the established time, it may be assessed a 10 percent late penalty.**

## **Information on LLM/AI**

This class encourages the appropriate use of LLMs on specific assignments. In these cases, if you submit work that makes use of LLMs you need to do the following:

- You need to examine and evaluate the information generated by LLMs, as they may produce irrelevant or inaccurate information, i.e. hallucinations or confabulations. You need to check the source of the information and cite it properly. Texts generated by LLMs, copied and submitted as your final writing is considered a violation of the university's academic honesty policy.
- You should explicitly acknowledge the assistance of LLMs in the creation of your work (sections or parts that included ideas/issues initially identified via LLMs, or tasks achieved such as editing and paraphrasing, or calculations).
- When submitting larger works, you should provide an audit trail of queries (for example, a transcript of queries and responses) and a reflection report/note, as specified by the instructor.
- The instructor will carefully inspect any texts that are suspected of plagiarism or have been generated largely by AI, as indicated by detection software. They will make a judgment on such cases to take the most appropriate action, taking into consideration the context of the course and the specific assignment.

## **Courtesy**

- Be courteous, to me and your peers.
- Demonstrate thoughtfulness, respect and professionalism in your discussions online.
